

## STEPHANIE TO WED IN SPIRIT OF EUROPE

Crown Princess of Austria Wont Give Up Count Lónyay.

### SURRENDERS HER CHILD

Sixteen-Year-Old Archduchess Elizabeth Is Proclaimed of Age.

(Copyright, 1899, by the New York Journal and Advertiser.)

Vienna, Nov. 19.—The Archduchess Elizabeth, only daughter of the late Crown Prince Rudolf of Austria, was to-day proclaimed of age.

Her mother, the Crown Princess Stephanie, surrendered her to the guardianship of her grandfather, Kaiser Franz Josef.

The latter has assigned a court for her in the Imperial Burg Palace, where she will reside in extensive apartments, served by a full staff of court officials.

This is the event for which the Crown Princess Stephanie has waited anxiously, as it was her desire that her daughter should be settled either in this way or by marriage to Prince Leopold of Wurtemberg, who is a lieutenant in the King William regiment of Uhlans.

Crown Princess Stephanie leaves for Hungary this week to visit her betrothed, Count Lónyay, in his ancestral estates. Despite the opposition of Kaiser Franz Josef, of her father, King Leopold of Belgium, of the Pope and the courts of Europe generally, the Crown Princess persists in her determination to marry Count Lónyay.

The wedding will take place in London at an early date.

The Archduchess Elizabeth, who is declared of age to-day, was born on September 2, 1883.

## TO BE READ WITH A TEAR OR A SMILE FOR POOR HUMANITY.

MILWAUKEE, Wis., Nov. 19.—George Zeigler, a candy manufacturer of this city, is experiencing a startling transformation, which leads many to suspect that he has found the fountain of youth. His hair is turning black, although he is seventy years old. The change has been going on for six weeks, and his hair is now a well-defined black, although it has been gray for over forty years.

No dyes or applications of any kind have been used by Mr. Zeigler, and his only explanation is that his physical health is very good and that he has always taken excellent care of himself. He exercises daily with dumb-bells and takes a cold water bath twice a day.

Great Show for Dwarfs.—Westboro, Mass., Nov. 19.—"Measuring socials" are the latest fad in this village. The custom was inaugurated in the Y. M. C. A. Hall on Monday evening.

The admission fee was graded according to the height of the person—2 cents for each foot in height, and 1 cent per inch for each inch above even feet. Consequently, all those entering the hall had to stop to be measured at the door.

Kept a Gruesome Secret.—Marquette, Wis., Nov. 19.—Since last Thursday the city has been searched to find twelve-year-old Johnny Osberg, who left home at noon on that day for school.

To-day one of his playmates confessed that they went to play that afternoon on the river and Johnny fell in and was carried over the dam and drowned. The boy said he feared he would be whipped if he told. The body has not been recovered.

Alive, Thought Buried.—LaCrosse, Wis., Nov. 19.—John Rush, who was supposed to have been killed by the cars in this city about a month ago, has turned up alive at his home in Austin, Minn. A month ago a man was killed in the railroad yards of this city. Just before death he gave his mother's address at two different places in Chicago, saying his name was John Rush. Several days ago Mrs. Davenport, of Austin, Minn., arrived here, saying she was a relative of John Rush. She was accompanied by her husband, who was identified as that of John Rush. Last evening a man came to the door of the house of Mrs. Davenport at Austin, Minn. He proved to be John Rush, the missing man.

Two Bird Stowaways.

New Orleans, La., Nov. 19.—When the English ship *Lindisfarne* left Sunderland, in the northern part of England, some weeks ago, there was a heavy fog lying over the English Channel. It was so dense that it was impossible to see fifty yards ahead. On the second day out the fog cleared and the sun appeared, and with it two beautiful starlings.

The vessel was far from sight of land. The sailors treated the birds kindly and fed them with such delicacies as were at hand, and they seemed quite content with their new abode. The captain accounted for their appearance by the fact that they had been blown in the heavy fog and sought the protection of the vessel. They remained on the vessel all the way over until within sight of land, when they left the ship and did not return. The starling is purely a bird of the Old World, none being known to inhabit this country.

### GIRL ASTRONOMERS AT VASSAR DISAPPOINTED.

They Watched Faithfully for the Great Shower of Meteors Which Came Not.

Poughkeepsie, Nov. 19.—There is disappointment at Vassar College over the non-appearance of meteors, the students having made the most elaborate arrangements for observing the expected display.

It devolved especially upon the girls of the Astronomical Department to keep watch for the meteors. The star gazers were told off into divisions to stand watch on the roof of the observatory all night. This was kept up four or five nights, each division remaining on duty two hours, when it was relieved by a new set of watchers. They wrapped themselves up in golf caps and steamer rugs, duly recorded the meteors which were seen and anxiously waited for the maximum, at which the whole college was to be aroused and allowed to view the display from the new fire-escapes on the roof.

Some of the disappointed astronomers are thinking of getting up a meteoric display of their own, with the aid of rockets and roman candles. They say that Vassar, at least, shall have shooting stars that shoot.

Meritt at Willett's Point.

Major General Meritt, commanding the Department of the East, and his staff inspected Willett's Point on Saturday. They arrived on the Government steamer *General Slocum* and a salute of thirteen guns was fired. Major John G. D. Knight, the post commander, and his command, the 1st Cavalry, were on duty at the point and conducted him to the quarters which he was the guest of Major Knight at dinner.

Brigham H. Roberts, the polygamist Congressman-elect, has now been a fugitive from justice for eleven days.

Mr. Roberts will appear at the opening session of Congress as a member of the House of Representatives. The big petition which the Journal will present to Congress against the seating of Roberts and polygamy is growing at a remarkable rate. ### ROBERTS WILL NOT GO BACK TO UTAH.

Hill says that Roberts will go on to Washington and put in an appearance at the opening of Congress. ### SCHMIDT PROMISED TO WED A DOZEN WIDOWS.

Got Money from Each and Told Them to Meet Him at a Chicago Depot, But He Was Absent.

Chicago, Nov. 19.—A dozen women, all widows, created a lively scene in the waiting room at the Chicago, Rock Island & Pacific depot last night, and for a time the officials thought they would have to call in the police.

The disturbance was the result of the non-appearance of John C. Schmidt, who, according to each infuriated widow, had induced her to pay to him sums ranging from \$25 to \$50 upon his promise of marrying her.

Schmidt had arranged with each one of the widows to meet him at the depot, and from there he was to take her to his extensive grape farm in Salinas, Cal.

When the women met and exchanged confidences there was trouble, and Mrs. J. Mead, of No. 3122 Wabash avenue, and Mrs. Schuman, of No. 824 Sedgwick street, made complaint at Police Headquarters. Nearly all the women had turned their baggage check over to an expressman, who said he represented Schmidt. The police have been unable to locate the property.

## RING A BELL AND GET A NEW COOK.

The American District Servant Girl at Your Service.

FEE 20 CENTS AN HOUR.

Household Economic Association Has Invented This Latest Convenience.

The American District Servant Girl has been invented. The consumer rings a call and a servant at once arrives and begins sweeping the house and doing other chores at the rate of twenty cents an hour.

The name of the concern that invented the American District Servant Girl is the Household Economic Association.

It will begin supplying girls to customers on November 27 from what it calls its "wage earners' section."

The servants who need work will study in the School of Household Arts between calls. For a small fee experts will teach them how to cook. The girls who join the wage earners' section will receive a life, accident and sickness insurance policy.

Mrs. S. Henry Dessau is training a platoon of American district servant girls at her house, No. 144 West Eighty-fifth street.

To establishments in which additional help is required occasionally the district servant girls will be dispatched. They will not take their meals at the house of the customer.

"The meal question upsets a house where men are not regularly served," Mrs. Dessau says, "and besides makes an undue familiarity with the household, bad in its effects."

Three places are guaranteed a day to each American district servant girl. The places must be within easy walking distance.

Mrs. Dessau believes that in this plan lies the solution of the great servant girl problem. She thinks a service of this kind will secure the services of a class of girls who would not take a regular place.

The American district servant girl will have her evenings to herself and enjoy a large measure of independence.

Employers pay a fee of \$5 to join the association, which gives them the right to the service of one class of girls—chambermaids, for instance. For each other class the employer must pay an additional fee of \$8.

Substitutes will be supplied in emergencies, so that the patron will never be without help.

### BROOKLYN'S POSTMASTER WILL NOW TEST AUTOS.

Mr. Wilson Is Authorized to Prepare for the Change in Delivery Service.

Postmaster Francis H. Wilson, of Brooklyn, returned on Saturday from Washington, where he secured authority to begin a series of tests of automobile cars for collecting mails from the boxes.

"It costs us \$28,000 a year to do the work now," he said, "I hope to make the cost three-quarters of a cent a mile."

Mr. Wilson also expects to extend the special delivery service by means of special collection stamps to be issued for 10 cents each. One of these stamps added to one of the special delivery stamps, would assure prompt service, he believes.

## SNAKE BITE SAVES A WOMAN'S LIFE.

Also Leads to the Discovery of a Cure for Tuberculosis.

VALUE PROVED IN TESTS

Antidote for Snake Poison Cured Mrs. Johnson of Consumption in Last Stages.

Morgantown, W. Va., Nov. 19.—Dr. Page A. Gibbons, of this place, is the accidental discoverer of a cure for consumption even in advanced stages. He has demonstrated its value with complete success in one case, and further tests on animals have shown that it will cure the disease even when it has advanced far toward death.

The case in which this discovery was made was that of Mrs. Johnson. A year and a half ago she was in the last stages of consumption and had wasted away until she weighed only ninety-two pounds. To-day she tips the scales at 135 and there are absolutely no traces of the disease present.

When Mrs. Johnson was barely able to move she started to go into the spring house near the porch, where she had been left in an invalid's chair. She could not walk, but as she was alone and thirsty she crawled to the spring house on her hands and knees. As she reached the door she was struck full in the face by a copperhead which, with its mate, was sunning itself on the door step. It was a full-grown reptile.

Dr. Gibbons was summoned, but little hopes were entertained of the recovery of the victim already so nearly dead from the ravages of tuberculosis. When the doctor arrived he gave her two injections of permanganate of potash, and the same medicine was also administered internally.

Strange to say, the woman recovered from the bite, and later began to show signs of improvement from the consumption, from which she had been suffering.

The case has aroused very great interest among the medical fraternity, and experiments have been set on foot with the permanganate of potash. It has been found that guinea pigs and other animals, very weak after the introduction of the tubercle bacilli, are cured by the same remedy used in the case of Mrs. Johnson.

### CARDINAL AND BISHOPS AT CHURCH DEDICATION.

Philadelphia, Nov. 19.—The new edifice of the Roman Catholic Church of Our Lady of Mercy, at Broad street and Susquehanna avenue, one of the handsomest in this city, was dedicated to-day with elaborate ceremonies. More than thirty clergymen took part in the dedication.

Cardinal Gibbons presided at the pontifical mass, which was celebrated by Bishop Freudenstadt, of this city. Bishop Keene, of Washington, delivered the dedicatory sermon.

This afternoon a banquet was held, at which Cardinal Gibbons, Archbishop Ryan, of this city; Bishop Keene of Washington; Bishop Fitzmaurice, of Erie; Lieutenant-Governor Gobin and Rev. G. P. Coghlan, rector of the church, spoke.

This evening the social regenders were sung. Bishop Fitzmaurice being the celebrant.

### BURGLARS CHASERS IN EVENING DRESS.

Nimble Cracksmen Pursued by Many Chicago Society Men, Some of Whom Have Table Knives.

Chicago, Nov. 19.—Society men in dress suits, silk hats and patent leather pumps played a realistic game of "hare and hounds," with a real, live, well-dressed burglar for the hare, in Madison Park last evening.

The hunters were armed with rifles, Indian clubs, old-fashioned muskets, golf sticks, tennis rackets and carving knives. The hunt lasted for thirty minutes, but despite the ardor displayed in the chase the burglar eluded his pursuers by vaulting over the fence which encloses the park.

An hour later Inspector Hunt and two detectives of the Hyde Park police station arrested a man who is held on suspicion. He is an aristocratic appearing sort of person and corresponds to the description of the nimble burglar.

Mrs. A. Merrill, of No. 53 Madison Park, discovered the man searching the chiffonier in a bedroom of her house. She says he wore a long light overcoat, cut in the latest fashion, and a black derby hat.

When surprised at work he jumped through a second-story window out on to the top of the porch and from there to the ground, a distance of twenty feet.

Mrs. Merrill shrieked "Burglars!" "Police!" and "Help!" Her cries were heard all over Madison Park, and fashionable dinner tables were deserted in a minute by the men who gave chase to the thief.
